HARRY STIMLER IN THE GOODS AGAIN

HE AND JOHN NAY HAVE THOU-SAND OUNCE ROCK AT OLD BELMONT

Harry P. Stimler, one of the fathers of Goldfield, is in Tonopah arranging with Manager Chandler of the West End mill for the treatment of a batch of ore from his property at Belmont, known as the Sunrise, which is owned by himself and John Nay. They have a shaft down 80 feet on a four-foot ledge. The ore is rich but rebellious to a certain extent. Mr. Stimler says that a portion of the vein will run a thousand ounces in silver. The richest ore is the most refractory. It will be sent to the Western Ore Purchasing company and the lower grade, which is more susceptible of free milling, will be treated at the West End. This is only a temporary arrangement, as the owners plan to have their ore handled later by the new mill which is being erected at Belmont. Mr. Stimler still retains interests in the vicinity of Goldfield and Blair and will visit the holdings before returning to Belmont.

ANNUAL BAL MASQUE GIVEN BY EAGLES

Jack Hallahan, Turk.
F. Brown, clown.

YELLOW TIGER NOW USING AIR DRILLS

NEW EQUIPMENT INSURES RAPID PROGRESS IN DEVELOPMENT

The new surface plant of the Yellow Tiger Mining company, which has replaced the equipment destroyed or damaged by fire several months ago, is now in full operation, its completion having been delayed by the necessity for securing new castings for the compressor, defects in the old ones having developed after the plant was started a week ago, says the Tribune. Manager Charles D. Wilkinson has the new machine drills at work and says that progress will be rapid from this time forward in the development work that is to be carried on at a depth of 700 feet.

Work at this depth has been progressing at a good rate of speed, with the use of hand steel, for some time past and has resulted in exposing ore of excellent grade, block samples from the drift at the northeast of the shaft having yielded assays varying from \$40 to \$53 per ton for widths of from 24 to 30 inches. Northwest of the shaft a vein has lately been penetrated that has a trend almost at right angles with the main vein and which is believed to be an entirely new vein. Now that the air drills are in use, the winze from the 700 level, where some good ore is exposed, will be continued.

T. M. Pierce, Spanish.

INSIDE OF WHITE TRAFFIC IN SLAVES

ONE OF STRONGEST FEATURE FILMS EVER MADE COMING TO BUTLER

"Inside of the White Slave Traffic" is a moral lesson in motion pictures. Its theme is indicated in the title. It is a big subject, one that has been given grave consideration by many thoughtful men and women. These are divided naturally into two groups—one favoring battling with evil, the other would come into the open and fight a condition as ancient as the beginnings of history with modern weapons—and the chief of these publicity. To those who hold the latter of these opinions, "Inside of the White Slave Traffic" will be warmly welcomed. The Sociological Research Film company, as well as the cast which participated in filming the story gave much thought to matter of ethics and of policy. The story as it stands contains practically nothing of the underworld life. It does show of the scheming villainy of the underling procurers and a smug respectability of the man higher up, also of the wretched condition of the lashed victims. The forces of law and order, represented by many fine types of policemen, are upheld throughout the five reels of the picture. The moral of the story is impressively clear. There are many stirring situations of heart interest and of suspense. The action unfolds smoothly, coherently and always interesting. This picture has been passed and approved by the national board of censorship. It will be shown tomorrow afternoon and evening at Butler theatre, together with Pathe Weekly of current events.

Owing to length of program there will be only one matinee, commencing at 1:30. Two shows at night, first at 7, second at 8:30. Admission, adults 20c; children 10c. AdvF2311

HOW THE BRITISH MAKE EXPLOSIVES

(Continued from Page 1)

runs through lead pipes to another room. There it is allowed to settle in vats, and the surface is skimmed off. If the compound has not been properly mixed, a ring of peacock green appears on the surface of the tank, and the attendants dash out of the building to save themselves if they can.

The third building is devoted to the washing of the nitro-glycerine to get rid of the excess free acid. Two washings are gone through, the first in pure water agitated by compressed air jets, and the second time in water to which a strong solution of soda has been added to neutralize the remaining traces of acid.

Nitro-glycerine is now used for many purposes in the form already reached. But to make dynamite, it is taken to a fourth shed, where finely ground wood pulp and Chilean saltpetre are added. This yellowish soapy mixture is harmless unless fired by strong concussion, generally

PERSONAL

AL THACKERY of Bakersfield is a guest at the Mizpah.

E. C. MAGUIRE returned this morning from a visit to Goldfield.

J. H. KIMBALL left this morning for Butte county, California.

JOHN C. MARTIN, publicity manager for the Charles S. Sprague company, returned to Goldfield this morning.

HON. E. A. DUCKER, district judge of Humboldt county, was a passenger through to Goldfield this morning. He went to hold court for Judge Walsh, who was disqualified in the Flynn homicide case.

ANNUAL MEETING

The annual stockholders' meeting of the Manhattan-Rainbow Mining company will be held at 2 p. m. on the 2nd day of March, 1915, on the company's property at Manhattan, Nye county, Nevada, for the purpose of electing officers for the ensuing year.

CLARENCE W. ALBEE, Secretary.

RETURN FROM RENO

Joe Nay, wife and daughters returned this morning from Reno, where both Mr. and Mrs. Nay underwent medical and surgical attention. They report that Ed Clifford's child is much improved and the Cliffords will also return shortly.

TEMPERATURE REPORT

Highest temperature yesterday, 36; a year ago, 39.
Lowest temperature last night, 29; a year ago, 25.

ED WHEECE sells Rock Springs and Hiawatha coal, lumber and building material. Phone 462.

AdvJ29-F23

by a cap of fulminate of mercury, an explosive that goes off at the merest touch.

Dynamite is rarely used in torpedoes, because gun cotton is more convenient. Some forms of it, however, enter into submarine mines.

The making of melinite and picric acid and of trinitro-toluol, the terrible explosive used in aerial bombs, is kept from the public, while absolute secrecy surrounds the making of cordite, lyddite and the mysterious "P" powder. Not even the workmen and the chemists employed, in making these explosives know the combinations into which they are mixed for service use. It is said that some of the materials turned out in the explosive factories, which employes and chemists think are absolutely necessary to the production of service charges, are not used at all. They are asked for simply to mislead possible traitors who would betray government secrets.

AMUSEMENTS

BUTLER THEATER

As usual, a splendid four-reel program may be seen at the popular little play house tonight, "The Birth of Our Saviour," an Edison drama. (Scenario prepared by Rev. DeWitt L. Pelton.) Into this film is reverently incorporated the Bible narrative of Christ's birth, and the "Flight of the Holy Family." A Christmas film of the highest order. "Case of the McWintor Family," being the sixth episode of the Thanhouser serial story, "Zudora." It is stated that this episode of "Zudora" is a very interesting one and holds the attention of the audience from start to finish. The acting throughout this serial has been looked upon as being the very best in all respects. "Meeting Mr. Jones" and "Our Home-Made Army," two Biograph comedies of the most laughable kind.

Tomorrow, "Inside of the White Slave Traffic." Five reels and Pathe Weekly.

NEW SUBSTITUTE TEACHER

Mrs. Mabel Simpson Taylor, a graduate of the normal class last spring here in Tonopah, was engaged this morning as a temporary substitute teacher in the fourth grade. She relieved Miss Katherine Swart, who is a member of the present normal class. Miss Swart goes away Thursday with the girls' basketball team on its trip north.
